## 📄 Summary

Turning raw data into meaningful insights passionate about analytics, problem-solving, and building things that matter.

## 🎓 Education

|                                    |                                   |
|------------------------------------|-----------------------------------|
| St.Joseph's College of Engineering | B.E. Computer Science Engineering |
| Engineering                        | Chennai • 4 years                 |
| S.A.V Balakrishna                  | 9th - 12th                        |
| Higher Secondary Education         | Tirunelveli, India                |
| ILOA international school          | LKG - 8th                         |
| Primary Education                  | Jaleeb-Al-Shuwaik, Kuwait         |

## 📁 Experience

|                              |         |
|------------------------------|---------|
| Prodighy InfoTech            | Chennai |
| GenAi Intern                 | 1 month |
| CodeAlpha                    | Chennai |
| FullStack Development Intern | 1 month |

A curated repository of my software development projects, technical experiments, and algorithmic problem-solving.

- Key Highlights:
- Academic & Personal Projects: Source code, documentation, and deployment files for full-stack and standalone applications.
  - Algorithmic Problem Solving: A structured collection of optimized solutions to complex LeetCode and data structures/algorithms (DSA) problems.
  - Clean Code Practices: Focus on modular architecture, comprehensive documentation, version control best practices, and efficient algorithmic complexity.
